PRODUCT CATALOG

Handcrafted in  
Holmes County, Ohio  
USA

## RUSTIC AND REFINED

Sawmarks is a third generation, family-owned business. Each and every piece of our furniture is designed and crafted in Holmes County, OH, USA. Our craftsmen build with American solid hardwoods and use mortise and tenon joinery. We offer traditional to contemporary designs that create warm, inviting, and functional spaces.

Sawmarks furniture is cut from select solid brown maple or oak. The resulting saw blade marks are left to create a distinct one-of-kind appearance. Customers then choose from a variety of beautiful finish colors, and customization options to create a look that's just right for their family's home and lifestyle.

At Sawmarks, our attention to detail extends far beyond the quality of the fine furniture we create. All of our solid wood furniture is completed with formaldehyde-free finish products. Formaldehyde is a carcinogen commonly used in adhesives and finishes of lesser quality products. We also support our local communities and the environment by sourcing only locally grown and harvested lumber. We strive to generate little waste by using wood remnants to heat our homes in the winter and build memory-making campfires in the summer. Sawdust is generously distributed to area farms for use as bedding for livestock. Proper use and maintenance of our woodlands is essential to a thriving ecosystem. This is possible only when companies and individuals use this natural resource respectfully. Sawmarks is proud to take on this responsibility.
